

You are more than a set of symptoms!

*Explore the powerful, proactive and personalized practice of **Functional Medicine**... patient-centered healthcare for the 21st century*

Learn how Functional Medicine works by addressing the underlying causes of chronic disease, a complex intersection of genetics, environment and lifestyle factors unique to each patient. Dr. Uday Jani, a board-certified internist who has completed advanced training in functional medicine, will explain the principles of this integrated and highly effective path to wellness.

Tuesday, May 17 - 5:30 PM
Milton Library

Wednesday, May 18 - 3 PM
Lewes Library
